

PROVIDER OPPORTUNITY IN VIRGINIA

Evidenced-Based Associates in collaboration with Virginia's Department of Juvenile Justice have issued an

Invitation to Negotiate (ITN) for a Functional Family Therapy Program

Highlights

Functional Family Therapy (FFT) is a quality, evidence-based, intensive, family-focused therapy model. FFT is demonstrated to be highly effective for system-involved youth referred for behavioral or emotional problems.

- Targeted Locations will serve the western region, specifically localities within CSU 30, CSU 29, CSU 28 and portions of CSU 27.
- Year one funding support will cover implementation, training, and licensing.
- Stakeholder Pre-Proposal meeting on **April 26, 2019**.
- E-mailed questions regarding this ITN are due by 5 pm on **May 3, 2019**.
- ITN Responses are due by 5 pm on **May 20, 2019**.
- A provider will be selected by a cross-agency team after rating responses.
- Team will be operational by August 1, 2019.

**Interested agencies are invited to attend a Pre-Proposal Meeting
April 26, 2019 at 1:30 PM**

Virginia DJJ Service Delivery Model

Background:

In October 2016, the Virginia Department of Juvenile Justice awarded contracts to two lead service coordination companies, AMIKids (AMI) and Evidence-Based Associates (EBA). The Regional Service Coordinators (RSCs) select and award sub-contracts to direct service provider companies. AMI manages provider selection and referrals for the VADJJ's Eastern and Southern regions. EBA manages provider selection and referrals for the VADJJ's Northern, Central and Western regions. In 2018, through its RSCs, the VADJJ launched Multi-Systemic Therapy (MST) and Functional-Family Therapy (FFT) teams throughout Virginia. The combined geographical catchment areas for the current MST and FFT teams reach 112 of the 133 cities and counties in Virginia. In April 2019, a solicitation will be issued to select a provider agency to launch of an FFT team to serve 14 additional counties in Southwest Virginia.
